**PUBLISHING SHORTLIST
MARCH 2018**

IS YOUR BOOK WORTH IT?

You have an idea for a new book. You may even have a solid draft ready to submit to an agent or an editor. But you hesitate. Is your book idea good enough to withstand the trials of publishing?

If you have put a great deal of heart and more than one long night into your book—if you have passion for what you are writing—it's worth crossing your fingers and sending it out to someone who can help you publish.

YOUR TARGET AUDIENCE

We can help you understand your target audience/readers. This is important for the book distribution cycle. So if you are targeting based on demography i.e location, age and gender, we can make it easy combining the stats, figures and ideal channels of reaching them.

YOUR BUDGET

When it comes to creating awareness and generating sales for your book, your BUDGET comes to play. However, there is no minimum spend on marketing. 60% of our marketing efforts are based on how far you are willing to go with your budget.

Marketing must be strategic and must reflect both your primary and secondary goal. Marketing with your budget will cover both free and paid marketing channels which we would share with you in the preceding pages.

if you have the will,
we have the way...! ➤➤
